

THE LOVE FOR “REAL CERAMICS” IN GLAZED
TERRACOTTA FOR MORE THAN 50 YEARS

Ceramica Senio has been a manufacturing company of **Made in Italy** ceramic tiles, in glazed terracotta, for more than 50 years. The tradition and craftsmanship that make us different allow the **customization** of the product, in terms of sizes, shapes, colours and surface finishes.

The glazes, the colours and the surfaces that we offer are the result of the continuous **experimentation** of our laboratory. The effects on the **surface** we can obtain are infinite: materic, crackle, antiqued, glossy, transparent, silk, metallic, mother of pearl, etc...

Express your creativity by designing a **unique product** !
The passion for what we do and our experience are at your service.

Our challenge is being interpreters, not only of tradition but also of contemporary design. We develop our collections with passion, starting from the study of **raw materials** and of the **colour range**, always going through new artisan **production processes**, up to the design of settings.

LAPIS

LAPIS is a collection of glazed terracotta wall tiles, strongly characterizing its surrounding space. The 6 semicircles of its section give the surface a three-dimensional structure and create vibrations of light and shadow in all the room. LAPIS, available in 27 different colours and surfaces, is sized $20 \times 30 \times 2$ cm - 8" \times 12" \times 0,8" and does not need nor to be explained, neither to be explained... Just imagine covering your wall with lots of coloured pencils!

SIGNS

SIGNS is a collection made of glazed terracotta for covering, characterized by a three-dimensional surface, on which there are small grooves that sculpt the material, giving rhythm to the coating. The collection is made up of a single size 15 × 15 cm - 6" × 6" in six warm and deep colours, which highlight the details, carved on the craquelé, lacquered, waxed or mother of pearl surface.

Bon Bon

BON BON is a collection of handcrafted ceramic wall tiles in glazed terracotta characterized by the original PROVENZA size 10 × 17.5 cm - 4" × 7" and the glossy surface, shiny like the glaze that covers candies. The mood of this collection is fresh and playful because of its pastel colours and the Provenza shape which stimulates the imagination of the designers, by its many special pieces and its characteristic arched edges.

SPATULA

SPATULA is a glazed terracotta tile collection, which succeeds in combining the contemporary “urban chic” style with the real artisan ceramics know-how.

Spatula represents the fusion of high craftsmanship with design.

The range of colours chosen for this collection respect the material of which it is made of and embellished with metallic, warm and natural shades.

The collection is available in several sizes: from the “industrial” 10 × 20 cm - 4” × 8” to the more traditional 10 × 10 cm - 4” × 4”.

STICK

STICK collection is suitable for wall covering and represents a goal for the technological and artistic research of Ceramica Senio. The crackle glazes are applied on long porcelain slabs sized 20 × 120 cm - 8" × 48" with surprising aesthetic and ceramic effects. The surface of this big size gets 15 glossy colours with a "wet" effect and 1 opaque metal. The collection is enriched by smaller modular sizes, mosaics and special pieces.

All the collections are enriched with **mosaics** of different sizes, infinite colours, decorations and surfaces, always made by hand, without the use of machines.

To embellish and refine a coating, we complete our collections with special pieces and moldings. Each **special piece** is initially designed and made by hand, just like a sculpture, and only afterwards, the molds are created for pressing.

The special pieces can emphasize the covering, embellish it or simply finish it...
