

LACCATI

Cocktail di colori e formati
Cocktail of colours and sizes

I LACCATI rappresentano una importante collezione di colori realizzati con maestria dagli artisti ceramisti dei laboratori Senio. Il tradizionale processo produttivo della terracotta smaltata, caratterizzato da una lenta cottura e da sempre utilizzato da Senio, ha permesso di riprodurre smalti ceramici, come avveniva una volta, brillanti e vellutati al tatto, con tonalità di rara brillantezza cromatica. I LACCATI sono un esempio di manufatto ceramico che ricalca la cultura di un territorio denso di storia quale appunto Faenza e le sue botteghe. I 66 colori sono disponibili in tantissimi formati, mosaici e pezzi speciali dai quali i designers possono attingere per creare il loro “cocktail creativo”!

Los LACCATI representan una importante colección de colores realizados con maestría por los artistas ceramistas de los talleres Senio. El proceso productivo tradicional de la terracota esmaltada, caracterizado por una cocción lenta y siempre utilizado por Senio, ha permitido reproducir esmaltes cerámicos, como en tiempos pasados, brillantes y aterciopelados al tacto, con tonalidades de rara brillantez cromática. Los LACCATI son un ejemplo de manufactura cerámica que refleja la cultura de un territorio rico en historia como lo es Faenza y sus talleres. Los 66 colores están disponibles en una gran variedad de formatos, mosaicos y piezas especiales de los cuales los diseñadores pueden extraer para crear su “cóctel creativo”!

I LACCATI collection represents an important array of colors masterfully created by the ceramic artists at Senio workshops. The traditional production process of glazed terracotta, characterized by slow firing and always used by Senio, has allowed the reproduction of ceramic glazes as they once were, bright and velvety to the touch, with shades of rare chromatic brilliance. I LACCATI are an example of ceramic craftsmanship that reflects the culture of a territory rich in history such as Faenza and its workshops. The 66 colors are available in a vast array of formats, mosaics, and special pieces from which designers can draw to create their own “creative cocktail”!

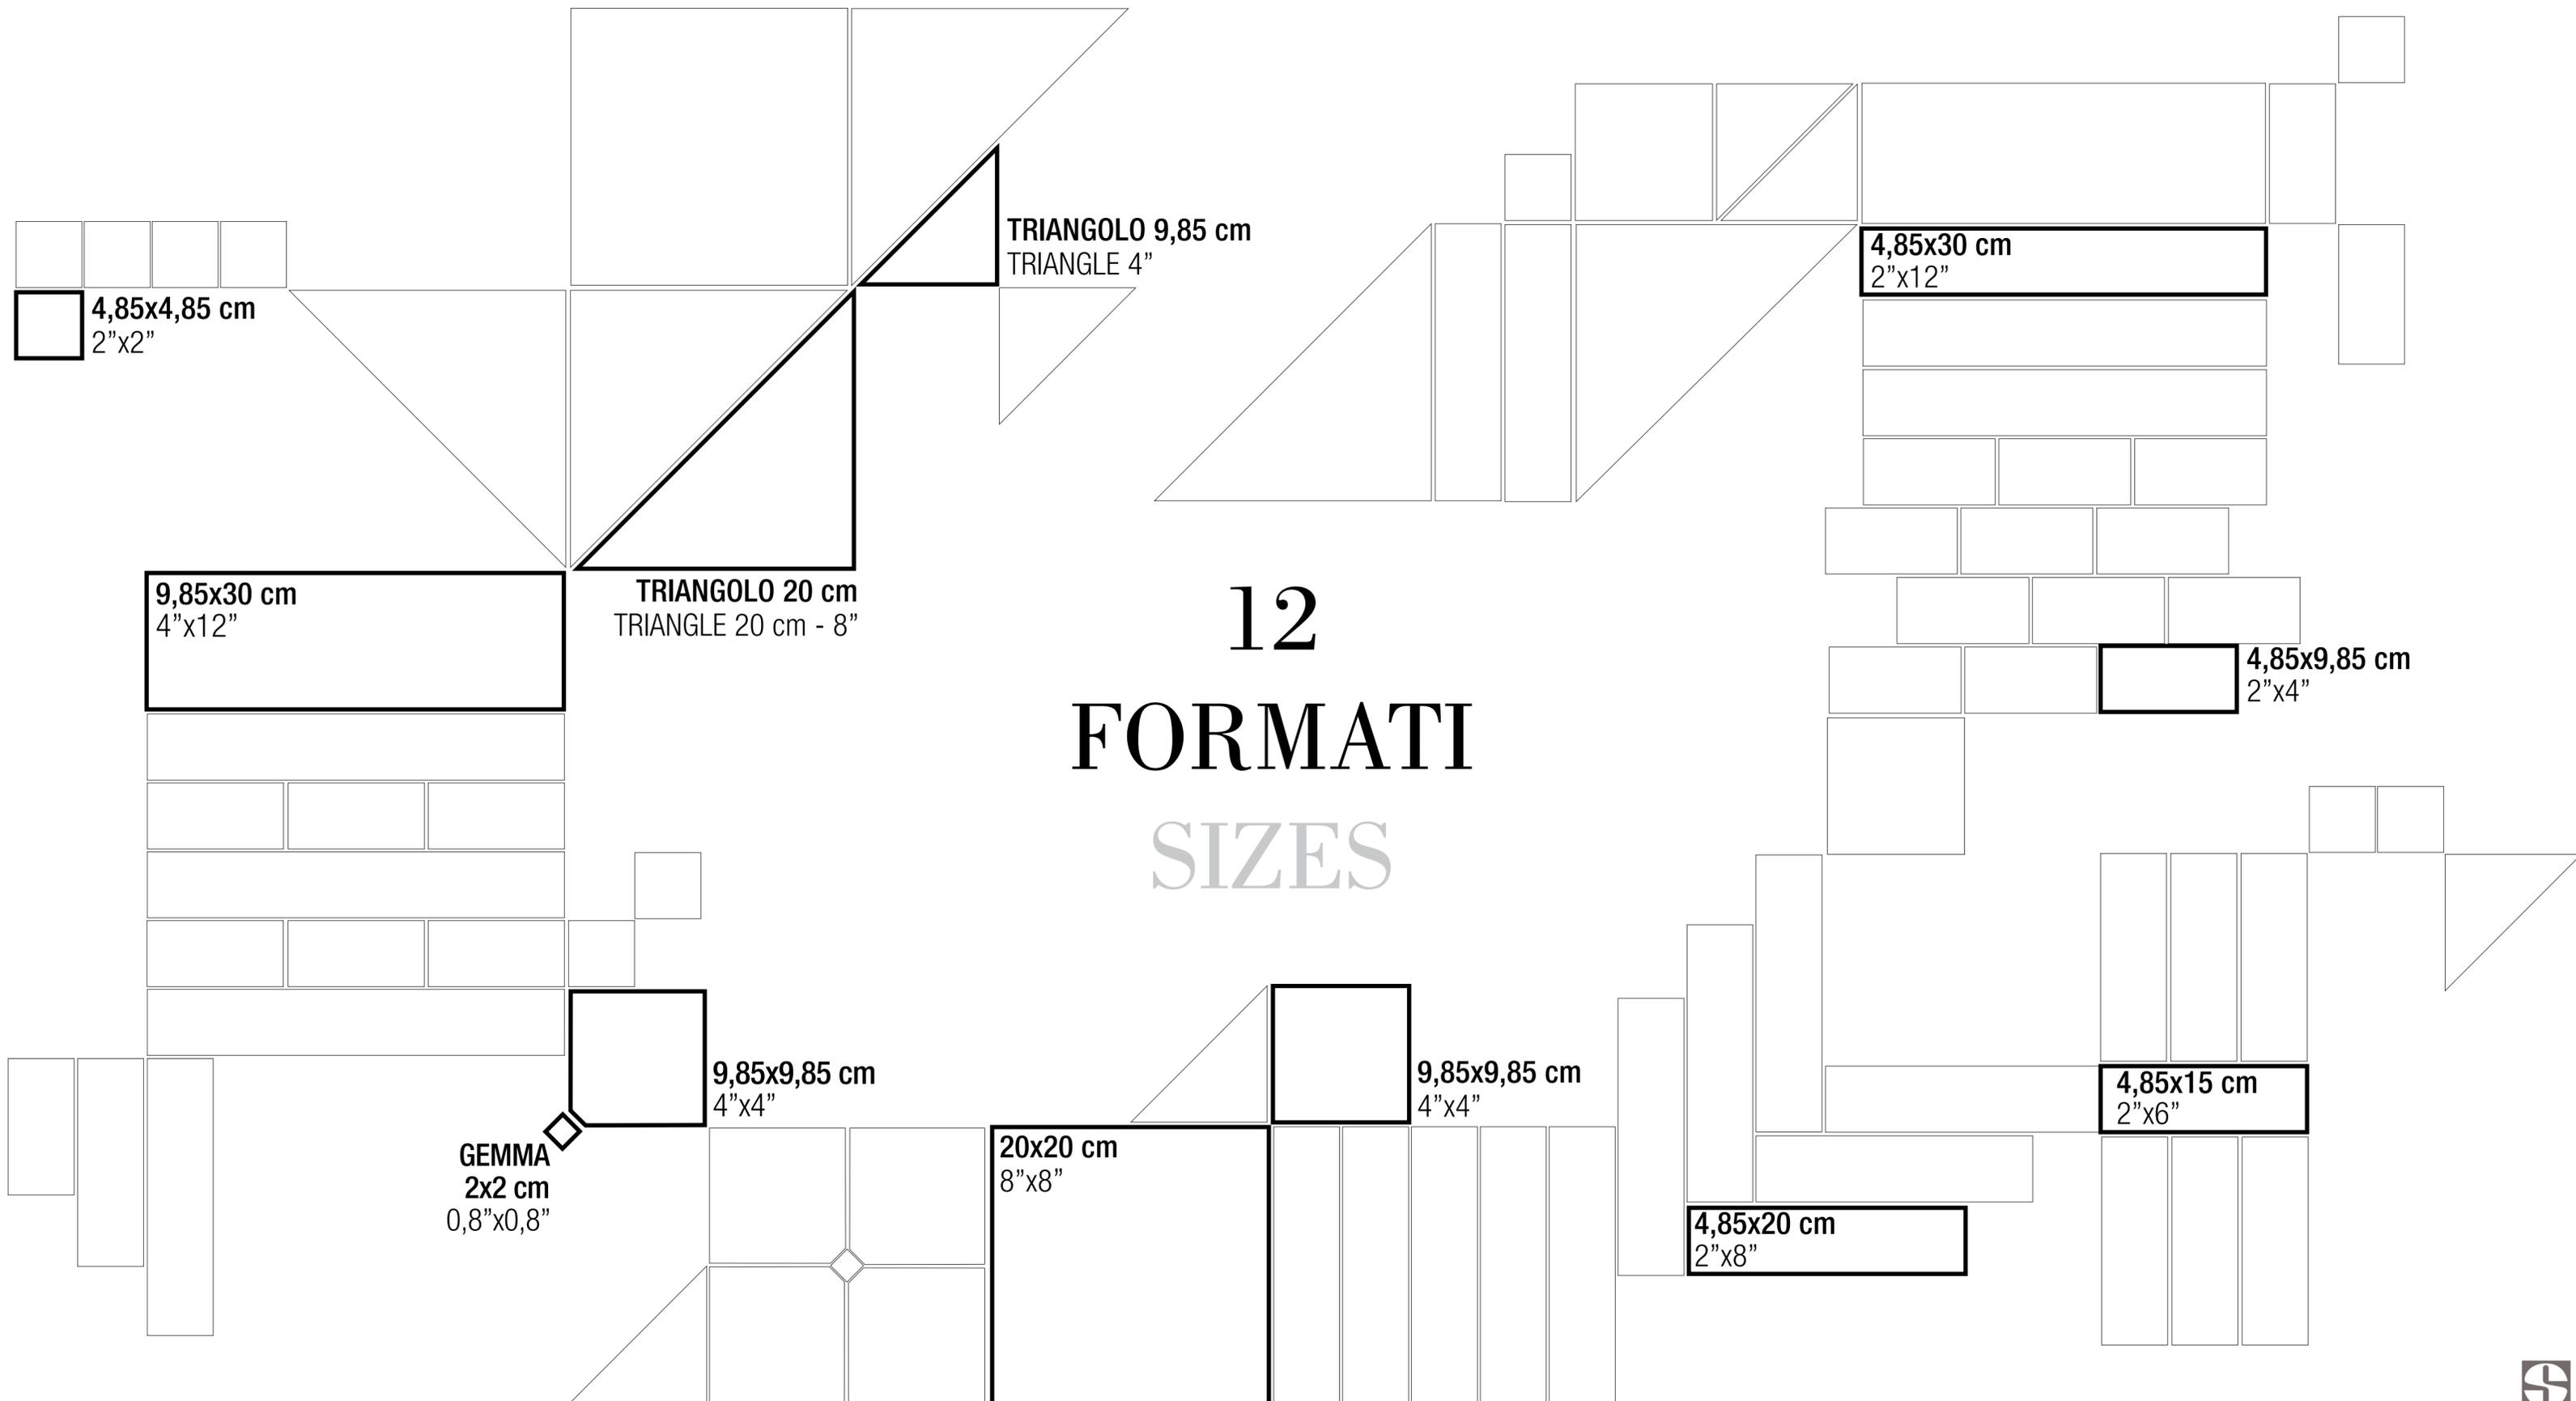

Die LACCATI repräsentieren eine wichtige Kollektion von Farben, die meisterhaft von den Keramikünstlern der Senio-Werkstätten hergestellt wurden. Der traditionelle Produktionsprozess der glasierten Terrakotta, gekennzeichnet durch langsames Brennen und stets von Senio verwendet, hat es ermöglicht, keramische Glasuren zu reproduzieren, wie einst, glänzend und samtig im Griff, mit Farbtönen von seltener chromatischer Brillanz. Die LACCATI sind ein Beispiel für ein keramisches Erzeugnis, das die Kultur eines geschichtsträchtigen Gebiets wie Faenza und seiner Werkstätten widerspiegelt. Die 66 Farben sind in vielen Formaten, Mosaiken und Spezialteilen verfügbar, aus denen Designer schöpfen können, um ihren “kreativen Cocktail” zu kreieren!

Les LACCATI représentent une importante collection de couleurs réalisées avec maîtrise par les artistes céramistes des ateliers Senio. Le processus de production traditionnel de la terre cuite émaillée, caractérisé par une cuisson lente et toujours utilisé par Senio, a permis de reproduire des émaux céramiques, comme autrefois, brillants et veloutés au toucher, avec des nuances d’une rare brillance chromatique. Les LACCATI sont un exemple d’artefact céramique qui reflète la culture d’un territoire riche en histoire tel que Faenza et ses ateliers. Les 66 couleurs sont disponibles dans de nombreux formats, mosaïques et pièces spéciales dont les designers peuvent s’inspirer pour créer leur “cocktail créatif”!

LACCATI представляют собой важную коллекцию цветов, созданную мастерски художниками-керамистами мастерских Senio. Традиционный производственный процесс глазурированной терракоты, характеризующийся медленным обжигом и всегда использовавшийся Senio, позволил воспроизвести керамические глазури, как это было когда-то, блестящие и бархатистые на ощупь, с оттенками редкой цветовой яркости. LACCATI являются примером керамического изделия, отражающего культуру территории, богатой историей, такой как Фаэнца и её мастерские. 66 цветов доступны во множестве форматов, мозаик и специальных изделий, из которых дизайнеры могут черпать вдохновение для создания своего “творческого коктейля”!

A911 QUARTINO
1x20 cm - 0,4"x8"

La collezione è arricchita da due colori preziosi denominati "**Madreperla**". La superficie lustrata è prodotta da uno smalto madreperlato applicato in 3° cottura che conferisce cangianza, metamerismo e riflessione alla texture che riveste, donando particolari e unici effetti cromatici.

La collection est enrichie de deux couleurs précieuses nommées "**Nacre**". La surface polie est produite par un émail nacré appliqué lors de la troisième cuisson, qui confère iridescence, métamérisme et réflexion à la texture qu'elle recouvre, créant des effets chromatiques uniques et particuliers.

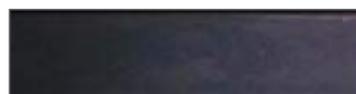

Die Kollektion wird durch zwei kostbare Farben bereichert, die "**Perlmutter**" genannt werden. Die polierte Oberfläche wird durch einen Perlmutterglanz erzeugt, der in der dritten Brennstufe aufgetragen wird und der Textur, die sie bedeckt, Farbwechsel, Metamerie und Reflexion verleiht, wodurch besondere und einzigartige Farbeffekte entstehen.

The collection is enriched with two precious colors named "**Mother of Pearl**". The polished surface is produced by a mother-of-pearl glaze applied in the third firing, which gives iridescence, metamerism, and reflection to the texture it covers, creating unique and particular chromatic effects.

La colección se enriquece con dos colores preciosos denominados "**Madreperla**". La superficie pulida se produce con un esmalte nacarado aplicado en la tercera cocción, que confiere cambio de color, metamorfismo y reflexión a la textura que reviste, otorgando efectos cromáticos particulares y únicos.

Коллекция обогащена двумя драгоценными цветами, названными 'Перламутр'. Полированная поверхность создается с помощью перламутровой эмали, наносимой на третьем этапе обжига, что придает изменчивость, метамеризм и отражение текстуре, которую она покрывает, обеспечивая особые и уникальные цветовые эффекты.

PASSION, QUALITY AND TRADITION THESE ARE OUR INGREDIENTS

“Double-firing” is the process that produce Ceramics still made with earth dust, double-fired at more than 1000 °C (1832 °F) and glazed with a manual intervention, to give your wall that special natural touch of craftsmanship that other products do not have. This tile, fired twice, is the real Ceramics, understood as a blending of Earth, Glaze and Fire.
